CleverHub

Connect your CleverHub to any brand screen for the true Clevertouch experience. The CleverHub is a wireless presentation system with inbuilt digital signage capabilities and touchscreen functionality. CleverHub simply connects to your room's display (touchscreen or non-touch), soundbar, camera, microphone and more. Then plug the USB-C CleverConnect into your laptop to screenshare, present or make UC calls using the room's peripherals. And when you aren't in a meeting, it will play your digital signage posters or videos via the build-in, non subscription CleverLive.

Multiple inputs including USB-C

PoE (Power over Ethernet)

Android 9

Unlimited device connections

Dual channel HDMI output

Built-in Bluetooth

Built-in WiFi

CleverConnect

Connect up to 50 devices with your meeting room display to share content such as files, images, video and audio. Control from your PC or directly from the screen and show up to 9 device screens simultaneously to increase collaboration in every session. x1 CleverConnect is included with your CleverHub.

Edit, update and control your digital signage content using our CleverLive platform. Instantly push your content to all or individual screens.

CLEVER® LIVE

Wireless Presentation System

CleverHub enables wireless screen mirroring from your device instantly to any meeting room display and peripherals. Simultaneously share multiple sources from multiple devices with hassle-free connectivity.

Bring your own device

Start a video call from any device and instantly share content from your screen. CleverHub fully supports BYOD and is compatible with Clevershare App, Airplay, Google Cast and Micracast.

Touchscreen functionality

Increase productivity and make your meetings more fluid with CleverHub's touchscreen functionality. Collaborate seamlessly, annotate over any document or dynamically arrange content on any screen with interactive features.

Digital Signage Capabilities

Use the full potential of your meeting room display and turn it into a digital signage screen when not in use. CleverHub has inbuilt digital signage capabilities that allow you to turn your meeting room display into an eye-catching, interactive full screen poster or video to share company information or messages.

Flexible and future-proof

Future proof your meeting room with CleverHub. With CleverHub you have the full flexibility to create the solution you need with additional upgrades and features available through the inbuilt Cleverstore feature.
